

Hertco Express 3.0 2020 Design Catalog Instructions

The catalogs are named: **HExp91_C1** copy 1
HExp91_C2 copy 2
HExp91_C3 copy 3

Please use WINDOWS INTERNET EXPLORER to download the catalogs. Google Chrome and Foxfire are presently truncating, (breaking up the large catalog files into small packets) and they will not install in 2020. Be careful to SINGLE click the catalog and SAVE (to a location on your computer where it can be found easily). Double clicking will result in Windows “unzipping” the file and it will not install in 2020 properly.

Contact Gary Sheldon about additions or corrections. Email: garysheldon@kb-order.com Phone 678-520-5396 (EST)

Catalog Notes: Prices are now editable in all price columns.
Birch Plywood prices have been changed.
Dimensions of Panels and cabinets are now editable.
Some specific items have been corrected.
Thank you to the designers who have pointed out specific items that needed attention.

The Price columns are arranged by material and wood species. Please select one of the 25 price columns.

When the \$8,888.00 price is shown, the item must be quoted by Hertco. Please see the Hertco Quote Request Form on page 17 of the print catalog.

When the \$9,999.00 price is shown, the item is not available in the selected price column, material, or wood species.

When selecting the Catalog Styles under Items, Styles & Pricing, Door Styles/Factors, become familiar with the User Code structure which is made using 15 characters:

1. Select the type of Material: Acrylic, Alumina, High Pressure Laminate, Painted MDF, Painted Wood Heirloom, Painted Wood Impressions, Thermofoil, or Wood Doors by Species; Beech, Brazilian Cherry, Cherry, Clear Alder, Fir, Hickory, Knotty Alder, Maple, Oak, Quarter Sawn White Oak, Sapele, Walnut, or Wood Veneer Echo Wood.
2. Select the Door Style by Name
3. The User Code is comprised of 15 characters:
 - a. Door Name, (1900 would be shown as 19)
 - b. Material (Melamine, Thermofoil, Painted Wood, Wood Specie, etc.)
 - c. Door shape (Raised, Recessed, Reversed, etc.) Rec, RevRais, etc.
 - d. Door Frame dimensions (Stile width and Rail height) 2316 = 2 3/16” Stile & Rail,
 - e. Door Frame dimensions (Stile width and Rail height) 3 indicates 3” Stile & Rail.
 - f. Edge Profile (Eased, Radius, etc.) E = Eased Edge
 - g. Finish by Code (alpha character + a number, for example, M1 (Maple) + (1=Honey Finish)

When Modifying the dimensions of a cabinets and placing Add-On Attachments

First, change the size of the cabinet,

Second, add the Add-On Attachment(s) (Integrated Finished End, Toe Kick changes, ID (increase depth), etc.) The Nomenclature (User Code, Floor Plan description and the Description) will change to show which dimension(s) were changed.

The Nomenclature will show the architecturally correct dimension sequence: Width X Height X Depth. So a Base 18 reduced to 17” wide would read: B173424L - B18L Base. This automatic functions alerts the designer to make the appropriate Modification charge from the Add-On Attachments, the Order Entry Department at Hertco will know what dimension(s) was changed and the installer will be aware.

This nomenclature change does not show fractions in the Quote Report. The fractions of a change of dimensions will show in the Cabinet List Report. Use this Report to order cabinets.

#	Qty	Description	Width	Height	Depth	Left-Right	Price	Hng
1	1	B163424L - B18L Base	16 1/2	34 1/2	23 3/4	U-U	\$358.00	Left
